

Nine teachers were awarded with scholarships of the President of the Republic of Kazakhstan on the program "Bolasha?" (Zamzagul Baimaganbetova, Botagoz Bermuhanbetova, Karlygash Karybekova, Rumkul Ismailova, Aida Balkibayeva, Raushan Sametova, Anar Nukesheva, Kairat Nurmaganbetov, Danagul Tleuzhanova), who studied in the UK, Switzerland, Belgium and Gulden Zholdoyakova trained in Russia.

At the Faculty the innovative learning technologies with advanced automated systems were introduced (application packages) «Project Expert», «Audit Expert», «IBM SPSS»; ways to use the software in the development of the diploma and master's works regularly have been discussed.

The scientific activity of faculty is the main part of training process. The unity of the educational and scientific processes is done by attracting students to participate in research work carried out at the expense of the budget of the Republic of Kazakhstan and other budget and extra-budgetary sources of funding.

All research work at the Department of Accounting and Audit is conducted in accordance with departmental topic, as well as in the framework of commercials.

7 grants were won on the state programs 055 and 212 with topics:

- 1) Forecasting and economic evaluation of the placement and structure of crops in crop depending on government subsidies to agriculture in Northern Kazakhstan (Kusainov TA);
- 2) Assessment of the socio-economic potential of different organizational forms of agribusiness entities in the conditions of Northern Kazakhstan (A.S.Ismailova);
- 3) System evaluation and selection of market-effective options for sustainable crop based on the risk model to the automation of payments (on materials of the North Kazakhstan), (Talgat Kusainov.)
- 4) Justification and forecasting needs of specialists with higher education in agribusiness Akmola region, supervisor : Nadezhda Meleshenko
- 5) Substantiation of effective logistics systems for the development of food belt of cities of Northern Kazakhstan, supervisor Bazarhan Rustembaev
- 6) Development of recommendations to attract highly qualified specialists in agriculture of Kazakhstan (Akmola region case), supervisor Maira Bauer
- 7) Study of the interrelationship of ethnic migration flow from the development of agriculture and the development of recommendations to attract and retain ethnic migrants in agriculture (on materials of Akmola oblast), supervisor Kairat Bodauhan.

All this indicates that the economic faculty has quite a great experience of successful scientific and applied research.
