

On 02/13/24, as part of the week of science, a round table was held on the topic: “Management of food security in the regions” with the participation of Deputy General Director of the Trade Policy Development Center “QazTrade” JSC N. N. Kulbatyrov. Nurlan Naizabekovich noted the need to maintain food security and spoke about organizations collaborating to ensure global food security indicators.

On 02/14/24, a guest lecture was held with the participation of Candidate of Economic Sciences, Associate Professor of ESIL University R. K. Berstembayeva on the topic: “Financial factors for increasing the standard of living in Kazakhstan.” Rysty Kudaibergenovna noted that assessing the standard of living in Kazakhstan requires improving the methodology, which necessitates a revision of the composition and structure of the consumer basket. The cost of living does not reflect the real state of affairs and in this form cannot objectively serve as a basis for calculating social payments.
