

As part of the science week dedicated to the 130th anniversary of S. Seifullin, a round table on the topic was held on 12.02.24: "Circular economy in the agro-industrial complex: problems and prospects of development" within the framework of the project "Analysis of the problems of development of the circular economy in the agro-industrial complex of Kazakhstan with the development of a model for using its capabilities in modern conditions."

Moderator: Ph.D. in Economics, Acting Professor Nurmukhametov N. N.

Nurbakhyt Nurbopaeovich noted that as a result of the project, an investment project concept will be developed to use the opportunities and mechanisms of the circular economy for the development of a closed chain of commodity production in the agricultural sector based on the development of lean and digital technologies.
